

ENVIRONMENT & ENERGY MANAGER

Hutchison Ports UK is looking to appoint an Environment & Energy Manager to join the Health, Safety and Environment team. As part of our ongoing commitment across HPUK the Environment & Energy Manager will be the expert in sourcing best practice for Environmental issues, making recommendations and identifying and implementing strategies as required. An autonomous role the ideal candidate will have a passion for Environmental matters, driving change and supporting the continued delivery of a leading operation in identifying and meeting legislative requirements.

With 52 Ports across 27 countries we are unrivalled in our approach to developing and implementing new technologies and ways of working. We work closely with colleagues within Hutchison Ports Europe sharing knowledge and contributing to the ongoing development of Port Operations.

Hutchison Ports is committed to creating an inclusive work environment with a diverse workforce. We will consider all qualified applicants and encourage discussion about flexible working opportunities.

WHAT SKILLS ARE WE LOOKING FOR?

This is a key position within our organisation and would suit a qualified Environmental expert with the following skills:

We recognise that Environmental Management skills can be applied in various different industries, so you do not need to have previous experience in the Port industry.

ABOUT US

As part of the worlds' leading Port network, HPUK is made up of 3 Port Operations across the UK. With our main port in Felixstowe, Britain's largest deep water port, this is a key position in creating and delivering the environment strategy for HPUK.

We see this role not only as the technical expert but also in driving employee engagement through the Employee Environment Group, this has been supported previously by a Port wide World Environment Day and working as a key member of the Environment Committee which ensures the delivery of sustained Environmental performance across the Group.

The opportunity to work on varied projects across the business is extensive, some of those already identified are:

- Port Air Quality
- Alternative Fuels
- Sustainable procurement

However, we want your ideas and input in to what other areas we can develop and improve in – you will be supported in identifying and developing the case for enhanced Environmental provision across the business.

We offer a supportive, community environment and have recently been awarded Chartered status by Women In Maritime. We have our own Women's Network, offer leadership, mentoring and role specific training.
