

# **ENGINEERING SUPERVISOR**

Operational Engineering Department

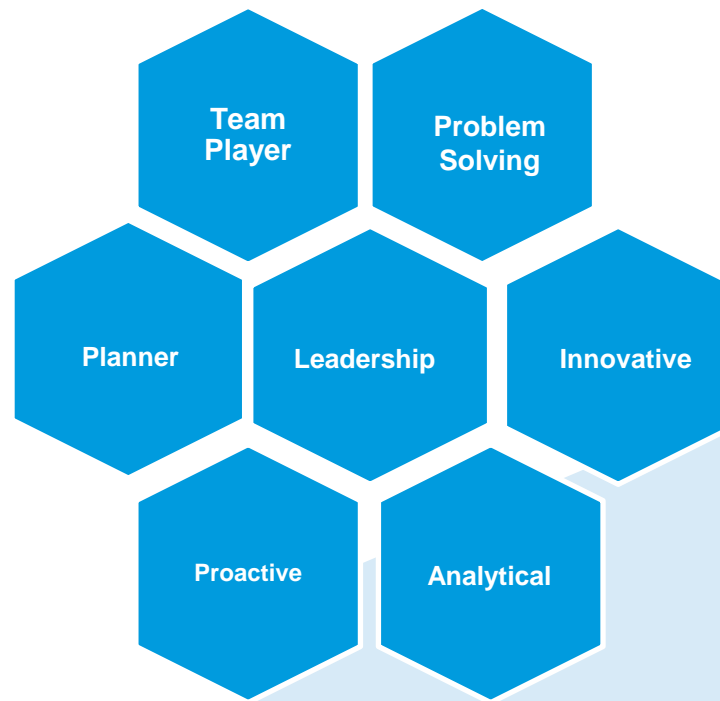

Hutchison Ports UK is looking for skilled supervisors to support and innovate our continued growth and development within engineering. Specialising in Mechanical or Electrical disciplines this role is to manage resources and supporting functions to deliver partnered solutions to meet productivity targets and business strategies.

We are looking for individuals who have a passion for engineering and career aspirations. Have achieved results in building a high performing team and is qualified or working towards the Higher National Certificate in a Mechanical or Electrical discipline. Knowledge of container handling equipment would be advantageous.

This is an opportunity for someone wishing to further their career and to work on a range of different equipment that is ever evolving to adopt to the latest automation technology and green energy.

# WHAT SKILLS ARE WE LOOKING FOR?

This is a key position within our Engineering Department, we are looking for individuals who have the ability to adapt to new environments with the following key skills:

We recognise that not every applicant will have all of the skills we are looking for, however if you feel you have the technical expertise, including an Mechanical/Electrical Engineering qualification and are keen to develop your career we will support you in achieving your best through training, qualifications and mentoring.

# TRANSFORMATIONAL ENGINEERING PROJECTS

- We have a number of exciting investment programs in the next generation of remote controlled and automated container handling equipment.
- We are early adopters of emerging green technologies to de-carbonise the supply chain.
- We continually invest in upgrading existing equipment to meet the ever increasing demands placed upon it.
- Ongoing maintenance of an extensive fleet of heavy plant and equipment at one of the world's largest and most technologically advanced Container Terminals
- Development work with external partners on the use of 5G networks in industry

# ABOUT US

As part of the worlds' leading Port network, HPUK is made up of 3 Port Operations across the UK. With our main port in Felixstowe, Britain's largest deep water port.

This position and strong leadership is fundamental for the port in order to secure upgrades and to maintain and commission container handling equipment which is vital to the productivity of the port as a whole. This role is supported by a structured training programme alongside a detailed skills matrix.

We offer a supportive, community environment and have recently been awarded Chartered status by Women In Maritime. We have our own Women's Network, offer leadership, mentoring and role specific training.

With 52 Ports across 27 countries we are unrivalled in our approach to developing and implementing new technologies and ways of working. We collaborate with colleagues with Hutchison Ports across the globe, sharing knowledge, and contributing to the ongoing development of Port Operations.
